CS 2700: Data Structures and Analysis

Not an official Northeastern University syllabus. Course code, title and credits come from the institution's public catalog; everything else below is invented.

Credits	5 semester credits	**Term**	Fall 2024
Contact hours	75 hours (lecture + recitation)	**Instructor**	Synthetic Instructor 4
Prerequisites	One introductory course in the discipline	**Office hours**	(not applicable - test file)

Course description

Data Structures and Analysis. Topics include linked lists, data visualization, hash tables, algorithm efficiency and binary trees; later weeks address network security, object-oriented programming and sorting algorithms.

Learning outcomes

To be discussed in the first class meeting.

Course schedule

A detailed course outline will be distributed in class.

Assessment

Component	Weight
Problem sets / assignments	25%
Quizzes	15%
Midterm exam	25%
Final exam or project	30%
Participation	5%

Materials and policies

Required materials: instructor-provided open course notes and readings posted on the course site. Grading scale: A 93-100, A- 90-92, B+ 87-89, B 83-86, B- 80-82, C+ 77-79, C 73-76, C- 70-72, D 60-69, F below 60. Policies: see the institution's own catalog; none are reproduced here.
