Credits	4 semester credits	**Term**	Fall 2024
Contact hours	60 hours (lecture + recitation)	**Instructor**	Synthetic Instructor 12
Prerequisites	One introductory course in the discipline	**Office hours**	(not applicable - test file)

Course description

Labor Economics. Topics include unions, minimum wage, human capital, labor supply and discrimination; later weeks address labor demand, wage determination and unemployment.

Learning outcomes

By the end of the course, students will be able to:
1. Explain the core ideas of unions.
2. Apply minimum wage to solve standard problems.
3. Analyze problems involving human capital.
4. Use labor supply in practical exercises.
5. Evaluate approaches to discrimination.
6. Communicate findings about labor demand.
