PSYCH-UA 34: Developmental Psychology

Not an official New York University syllabus. Course code, title and credits come from the institution's public catalog; everything else below is invented.

Credits	4 semester credits	**Term**	Spring 2025
Contact hours	60 hours (lecture + recitation)	**Instructor**	Synthetic Instructor 10
Prerequisites	None	**Office hours**	(not applicable - test file)

Course description

Developmental Psychology. Topics include developmental research methods, infancy, social development, attachment and prenatal development; later weeks address multisensory integration, adolescence and cognitive development.

Learning outcomes

By the end of the course, students will be able to:
1. Explain the core ideas of developmental research methods.
2. Apply infancy to solve standard problems.
3. Analyze problems involving social development.
4. Use attachment in practical exercises.
5. Evaluate approaches to prenatal development.
6. Communicate findings about multisensory integration.
